

Animal Rescue Zoo Ave build hospital for wild species

Foundation of Nature- Animal Rescue Zoo Ave located in the Garita de Alajuela, is currently working on the construction project for the new Wildlife Hospital, which aims to have the infrastructure and medical equipment necessary to achieve better results towards the numerous animals that enter to be attended or rehabilitated every day.

Currently, our foundation receives about 3000 animals per year, of this important number, 80% of the species are released in our Liberation Centers in The Península de Nicoya or Puntarenas, being a positive impact in the conservation of wild species in danger.

You can join our mission with the wildlife of Costa Rica and help us finish the hospital.
